

Lutron® | Residential Energy Accredited Contractor Program

Attend this two-hour seminar to become an energy accredited contractor of Lutron® products. You'll receive hands-on training on the latest lighting control technologies that save energy and represent sales opportunities for you—including wireless retrofit products and C•L™ dimmers for dimmable CFL and LED bulbs.

Get the Lutron Energy Accredited Contractor Advantage—complete this training to receive:

- Contractor Sales Kit—includes demos, loose products for installation, and business builders (**\$600 value**)
- Listing on Lutron.com as a “Residential Energy Accredited Contractor”
- Use of an exclusive Lutron Residential Accredited Contractor logo
- Sales tools and business builders
- Certificate from Lutron
