

ELECTRIC SUPPLY COMPANY INC
137 West 24th Street
New York, NY 10011

Lighting control manufacturer Lutron Electronics Co., Inc., introduces RadioRA 2 – a state-of-the-art lighting control system that provides convenient and intuitive control of lights, shades, audio-visual devices and temperature all at the touch of a button.

This new product takes the original Lutron RadioRA concept to a whole new level incorporating more than 10 years of RF experience, customer feedback, and new innovations. The result is a completely redesigned lighting control solution tailored to customers' needs.

The new RadioRA 2 features include:

- New System Components
- Main repeater with astronomic time clock, RS-232 and IP integration built-in
- Lutron's new seeTouch® hybrid keypad-dimmer for retrofit applications
- Wireless Pico™ Control
- Radio Powr Savr™ occupancy/vacancy sensors
- Native system support of GRAFIK Eye® QS lighting control and Sivoia® QS shading solutions – no interfaces required
- PC setup tool
- Intuitive system programming application makes RadioRA 2 easy to design and program using a PC.
- This feature allows the programmer to define zones and locations, light and shade levels, occupancy/vacancy sensing, etc. in every room in the home from one convenient location – saving time.
- Open Integration
 - Public integration protocol allows devices capable of sending and/or receiving RS232 or IP commands to control lights and shades.
 - Two-way communication provides the ability to monitor the status of lights in the home from popular remote controls, home automation systems and PCs.
- Scalable
 - RadioRA 2 is scalable from two to 200 devices (includes dimmers, shades, keypads, etc.)
 - Components can be added at any time to grow the system from a single-room to an entire home solution.

G&G & Lutron will be providing a RadioRa2 training and certification class on Tuesday, September 13th. It's from 8:30am to 4pm at Moran's Restaurant on 10th Ave and 19th Street. Contact Robert Ortiz ro@ggelectric.com at G&G to register. Space is limited.

What: Lutron accreditation and certification in RadioRa2
When: September 13, 8:30am to 4pm
Where: Moran's of Chelsea www.moranschelsea.com
Contact: Robert Ortiz 212-243-0051 or Alex Onorato 646-208-0658
